REPORT NO.

COUNTRY USSR (Moscow Oblast)

SUBJECT Podolsk Airfield

25X1A

DATE OF INFO. September 1947

1. The airfield was four miles southwest of Butovo (37°34'E/55°32'N), Moscow Oblast (for details see Annex).
2. An E-W runway, about 30 x 2,000 to 3,000 meters, was macadamized and was to be concreted.
3. Four small hangars, each 20 x 40 meters, for single-engine fighters, were on the northeast edge of the field. Earth-bunkers and wooden cantonment buildings used as billets for the field personnel were on the southeast edge.
4. A radio station was about 2 1/2 km east of the hangars.
5. The field was occupied by single-engine fighters and about 150 twin-engine Douglas planes.

25X1A

Comment: 150 twin-engine aircraft seems to be an exaggeration.
